CURRENT OBJECTIVE I'm looking for contract work as a software team leader, software engineer, scrum master or open source community builder, preferable in the mobile area. Being the team leader in a young company, whose employees are excited just like me about new technologies, methods and open source, would be the perfect job for me.

PERSONAL MARITAL STATUS: Married, with two children
BORN: 02/05/1982

CURRENT POSITION FREELANCE SOFTWARE ENGINEER / SCRUM MASTER *since 06/2011*
contract work for various local clients, see below

JAVA / SCRUM-CONSULTANT *since 01/2014*
Developer Coaching, Scrum Training and more,
for customers of GROSSWEBER (www.grossweber.com)

PREVIOUS CLIENTS XING AG *since 01/2017*

Senior Android Developer
Keywords: Android, Java

Development of messaging applications for Germany's largest business social network.

INFAl MANAGEMENT GMBH *10/2016 - 12/2016*

Senior Software Developer
Keywords: Android, Java, Jenkins, Gerrit, GitLab, Coaching

InfAl is supporting a big German car manufacturer in the development of Android-based multimedia apps for its entertainment hardware. My main task was the set up of Pipeline-based Jenkins builds for 20+ repositories, configuring and developing scripts and tools for complex synchronization processes between the main GitLab and a satellite Gerrit instance, as well as the optimization of internal development processes.

MAXDOME GMBH

01/2016 - 09/2016

Senior Android Developer

Keywords: Android, Java, RxJava, DI, Clean Architecture, MVP, Build Pipelines, Developer Coaching

I supported the relaunch of the maxdome Android app in multiple ways, e.g. by introducing instrumentated module and view tests, by automating the Jenkins build pipeline, by coaching young professionals and last but not least by developing some of the user-facing features of the new app.

PAYBACK GMBH

09/2015 - 12/2015

Senior Android Developer

Keywords: Android, Java, RxJava, DI, Automated Testing, Espresso, Developer Coaching

For the PAYBACK GmbH I worked on the successor of their mobile Android client, that makes collecting coupons a much more pleasant experience. My primary tasks were improvements in the application architecture and the introduction of automated user interface tests with Espresso.

GIP MBH

01/2015 - 07/2015

Gesellschaft für innovative Personalwirtschaftssysteme mbH

Agile Project Manager and Scrum Master for the [GIP mbH](#)

Keywords: Team Management, Change Management, Continuous Integration

The GIP hired me as Scrum Master and Agile Project Manager for two Java software development teams situated in Leipzig / Germany.

During my time there I was not only able to eliminate a number of impediments in the product development, but could also bring in my experience of configuring and using Continuous Integration systems and resolve process problems with self-written tools in Excel, Java and Javascript.

Furthermore, in the scope of the continuous change management of the company as a whole, I planned and introduced a new Instant Messaging system for improved real-time collaboration and took care of the integration of this software in existing third-party tools, like JIRA, GitBlit, Phabricator, and Jenkins.

VISPIRON CARSYNC GMBH

02/2014 - 12/2014

Scrum Master, Android Developer for train management system

Keywords: Android, Java, JSON-RPC, Document Management (CMIS), Scrum

At Vispiron, my initial job was to introduce Scrum to the existing team members and to setup all the needed tools (Jira, Confluence, Jenkins, and Sonar) to get Alstom's „InfoPlatform“ project on speed, a software that supports the train management of Alstom's „Coradia“ regional trains.

Afterwards, I specified, designed and developed the mobile Android

app for the said project, supporting tablet and smartphone form factors, with which train drivers and conductors of these regional trains can manage all the needed information for their daily operation. A noteworthy feature of this application is the permanent, intelligent background synchronization of documents and other data from a Document Management System (DMS) that enables users to work with those data even under very bad network conditions.

EDEKA LUNAR GMBH 11/2013 - 12/2013

*Developer of an Android app for mobile commissioning
Keywords: Android, Java, SAP (Sybase Unwired Platform), Bluetooth, NFC*

METAQUARK GMBH 09/2013 - 10/2013

*Reimplementation of an Android client for www.appfresh.com
Keywords: Android, Java, REST, Mockito, Robotium, Robolectric, Ant*

DAIMLER AG 09/2012 - 08/2013

*Development of a native Android client for www.moovel.com
Keywords: Android, Java, REST, Mockito, Robotium, Robolectric, Ant, Scrum*

DAIMLER AG 11/2011 - 08/2012

*Development of the mobile web client for www.moovel.com
Keywords: HTML5, Javascript, jQuery, jQuery Mobile, REST, JSON, Maven*

THE SCILAB CONSORTIUM 09/2011 - 01/2012

*Customizations for the project management software InDefero
Keywords: HTML5, Javascript, PHP5, MySQL, Subversion, Git, Mercurial*

INTERNET UNION GMBH 09/2011 - 08/2012

*IT and Development Lead for www.klubkasse.de
Keywords: HTML5, PHP5, MySQL, XML, Scrum, Debian, Jenkins, Admin*

APPSFACTORY GMBH 06/2011 - 01/2012

*Development of a picture-book application for the Android platform
Keywords: Android, Audio/Video, Graphics and Animation*
